

# Mukesh

UI Developer

## About Me

Let me introduce myself, I am a UI Developer with 3 years of experience. I'm passionate about creating intuitive and visually appealing user interfaces that enhance the overall user experience.

## Work Experience & Projects

### Celcom I Chennai - (Onsite)

2023 - Present

Angular Developer - Test Automation

I'm a frontend developer utilizing Angular in an onsite project, crafting test automation for assessing 4G and 5G signal connectivity globally. The application streamlines international call testing across diverse countries, reducing the need for extensive manual dialing.

### Techdew I Chennai

2022 - 2023

UI Developer - Revalgo Shipping

Monitoring the onboard crew members in a ship and vessel details. This included designing intuitive dashboards to monitor onboard crew members and ensuring effective data visualization also with real time information.

### Techdew I Chennai

2022 - 2022

Web Developer

I've designed multiple POCs, employing frontend development to prototype various applications. This process involves showcasing the behavior of the application while illustrating its conceptual aspects to the clients for their insight.

### Freelancing I Kaliakkavilai, Kanniyakumari.

2020 - 2021

UI Developer

Design and developing a shopping website for a tea manufacturing company. This platform will provide a secure and user-friendly experience for customers while enabling efficient updates and additions by authorized administrators.
