

MUKESH

UI Developer

About Me

Let me introduce myself, I am a UI Developer with 2 years of experience. I'm passionate about creating intuitive and visually appealing user interfaces that enhance the overall user experience.

Work Experience

TECHDEW

(Apr' 2022 - Present)

• Test Automation (UI Developer)

I'm a frontend developer utilizing Angular in an onsite project, crafting test automation for assessing 4G and 5G signal connectivity globally. The application streamlines international call testing across diverse countries, reducing the need for extensive manual dialing.

• REVALGO (UI Developer)

Monitoring the onboard crew members in a ship and vessel details. This included designing intuitive dashboards to monitor onboard crew members and ensuring effective data visualization also with real time information.

• Prototypes (UI Developer)

I've designed multiple POCs, employing frontend development to prototype various applications. This process involves showcasing the behavior of the application while illustrating its conceptual aspects to the clients for their insight.

.....

FREELANCER

(Nov' 2021 - Mar' 2022)

• DanieHills Tea (UI Developer)

Design and developing a shopping website for a tea manufacturing company. This platform will provide a secure and user-friendly experience for customers while enabling efficient updates and additions by authorized administrators.
